

Raymond Recorder

RAYMOND

A live town in a rich agricultural and stock-raising district. A good place to make your home.

Vol. 28

FRIDAY, JUNE 14, 1929

No 19

Local Happenings

Frank Hall has a nice porch under construction on the front of his home.

Mayor and Mrs. P. W. Cope motored to Kevin, Mon. on Sunday for a short visit with relatives who reside there.

Miss Arminto Earl, daughter of Mr. and Mrs. J. E. Earl is home from Normal School at Calgary.

'Ted' Gourley has built a new house for his beet thinnings, 12x24 ft. It's a real job and Ted claims to be a real carpenter now.

Miss Kate Allred has returned from her winters study at the B. Y. U. at Provo. She is glad to be home and reports having enjoyed her work.

Monday's showers softened the crusted ground very nicely and beets, grain and gardens have been making good growth since.

Virdeon Larson is home for the summer months after a winter spent at the Utah Agriculture College. He enjoyed his studies immensely.

Everybody invited to Clara Bow's "Wild Party" showing at the Capitol Theatre tonight and Saturday. You don't know the half of it until you see this.

Mr. and Mrs. R. W. Low New Dayton were here Saturday evening and Mrs. Solon Low and Mrs. Kenneth Allred returned with them for short visit.

Grant Broadhead of Cardston representing the John C. Whiston Co; Toronto, spent Tuesday and Wednesday in Raymond appointing an agent for his company.

Saskatchewan's next parliament will likely see the balance of power in the hands of the Progressives and Independents. At present neither the Liberals nor Conservatives have a clear majority.

We have quite a number of reports from the different Experimental Farms in the Dominion which would be glad to pass on to farmers who are interested in up-to-date methods in agriculture.

In the advertisement re Proposed Debutante By-law for Building a Town Hall which appeared in last week's issue, we had the date 27, in one place and June 20, in another. Both dates should have read June 20th and it is corrected in this issue.

The grade from the Stake House to the T. Geo. Wood corner is a real piece of work and the Council is to be complimented. A few blocks of real good grade each year with good drainage is far better than so much patching all the time without getting the road high enough so that it will be dry.

Next Wednesday, June 19th, will be a great day for Raymond. We have our first league ball game here with Cardston. It is the opening day of the showing of Al Jolson in "The Jazz Singer" at the Capitol, and in the evening will be the Open Air Dance on the Second Ward New Church House Floor and chicken supper the 2nd Ward will serve. Some program—Ball game, Picture Show, Dance and Supper. Everybody come and have a good time.

On and after July 1, every driver of a motor car must have a license from the Province. This will cost 50c and will be good until called in for any reason. Application cards will be mailed to every registered car owner, and if the questions on the card are answered satisfactorily the license will be granted. Licenses will not be granted to persons under 16 years of age, and those applying between 16 and 18 must have the signature of parent or guardian on the application. The idea is to eliminate the driving by physical unfit and boys and making the roads safer. The license may be cancelled or suspended by any magistrate who convicts a driver for speeding, driving while intoxicated or any similar offence.

AL JOLSON COMING IN "THE JAZZ SINGER"

Warner Bros. will present Al Jolson in "The Jazz Singers" at the Capitol Theatre next Wed. for a run of four days. The long-awaited presentation of the picture of Samson Raphaelson's comedy-drama, which continues to be a potent attraction on the legitimate stage, will be made a gala event.

Of the production of "The Jazz Singers" it is said that the Warners have lavished so much thought, care and attention that they look upon the completed work as the supreme achievement. For nearly six months the picture has been in active preparation.

The story of the rise of the son of the cantor who deserted his home to become a jazz singer and at last was torn between the desire of his father that he succeed him in the synagogue and his own desire to shine on Broadway is well known. Alan Crossland, who directed the picture, is said to have treated the story in the spirit in which it was conceived. That Jolson is the logical exponent of the story of the picture is clear from the fact that the story of his own life parallels it in many places.

Chief in Jolson's support is May McAvoy as leading woman in the role of Mary Dale. Warner Oland has the role of the elderly cantor. Among others in the numerous cast are Otto Lederer, Eugenie Besserer, Cantor Josef Rosenblatt, Anders Randolph, William Demarest, Bobby Gordon, Richard Tucker and Nat Carr.

U. F. W. A. MEETING

The U.F.W.A. held their monthly meeting Thursday, May 6, at the home of Mrs. T. O. King. The assisting hostesses were, Mrs. M. T. King, Mrs. Mable Heninger and Mrs. Owen King. The program was furnished by members of the Magrath local. Mrs. A. M. Merkley gave a very instructive talk on "Literature in the Home." She urged the mothers to implant high ideals in the minds of the children through the use of good books and magazines. As a criterion by which to judge literature she said a book must be "true to truth, true to life, or true to fact." She made a plea for Canadian authors as a means of instilling patriotism in the hearts of the children. Mrs. Inez R. Bennett gave a very practical talk on the "Uses and Abuses of the Homely Tin Can." Every woman present went away with a new and valuable use for these ever present articles. Mrs. Ehlert very pleasingly rendered a vocal solo and Mrs. Harold Stevens closed the program with a humorous reading.

The interest in U. F. W. A. work is rapidly growing as evidenced by the numbers present, 44 being in attendance. The next meeting will be held at the home of Mrs. Wm. Fisher and will take the form of a summer outing. It is hoped that Mrs. Carlson, Constituency Convenor will be present.

On Friday, June 7th, members of the Raymond local presented the program at the meeting of the Magrath U.F.W.A. The following program was given: Piano Solo, "The Tambourine," Miss Thelma Smith; Talk "The Canadian Council of Agriculture, its Objects and Accomplishments," Mrs. Relva Booth Ross; Reading, Miss Thelma Smith; Vocal Solo "That Old Refrain," Mrs. O. H. Snow. In addition to the ones taking part, the following Raymond ladies attended the meeting, Mesdames Wilford Meldrum, Berena B. Redd, Fern D. King, Letta M. Bacon, and Verna Phillips.

Mesdames Bacon, Redd, Phillip, and Ross remained until evening and attended the Primary Operetta "Donald's Friends," presented by the Magrath 2nd Ward Primary.

A number of original paintings by H. D. Weaver, formerly of Raymond, are being displayed at the Raymond Mercantile today and tomorrow, June 14th and 15th. These include well-known scenes in the Western States and British Columbia and will be of interest to everyone. Mr. and Mrs. Weaver are leaving for Chicago at the end of the present school term to enroll in the College of Art. More credit for Raymond through the work of her citizens.

WILLIS SELMAN PASSES AWAY

Funeral services over the remains of Willis, the thirteen year old son of Mr. and Mrs. D. G. Selman, who passed away Sunday afternoon, were held in the Stake House, Tuesday, May 11, at 2 p. m. with the First Ward Bishop in charge and Councillor Paul H. Redd conducting the services.

The songs by the choir were: Sometime, Somewhere; "Oh My Father;" and "Jesus I My Cross Have Taken."

The opening prayer was offered by Pres. H. S. Allen and the benediction by Wilburn Van Orman.

Special numbers were: Duet—Laycock Brothers, and a vocal solo by Mrs. O. H. Snow.

The speakers were T. T. Mendenhall, Rondah Dahl, Wm. Redd and T. Geo. Wood, all of whom offered words of comfort and consolation to the bereft, and spoke of the love and respect existing within the family circle for each other.

The funeral arrangements were in charge of Melvin Christensen and the pall bearers were four Boy Scout chums of the deceased, Lincoln Wood, Snylie Redd, Lyddel Roberts and Ray Lee.

The flower girls were from the same room in school as the deceased and were under the direction of Mrs. J. E. Earl.

The deceased had been ailing for a long time. He first had an attack of St. Vitus Dance, and when he recovered from this he was left with leakage of the heart. He has been bedfast for the past four months and all that human skill could do has been done. He spent two weeks in the Lethbridge Hospital, but his condition gradually grew worse and he was brought home last week, where he died.

He was a great favorite with his friends and an exemplary boy who will be greatly missed.

The sympathy of the entire district goes out to the family in their hour of sadness.

LEAVING THE LARGE BEET SEEDLING FOR MORE TONS

(By W. W. Robbins, University of California, College of Agriculture)

The runt beet plants at thinning time remain runts, just like the runt pig in the litter. This fact should be recognized in thinning, and care be exercised to leave the large seedling.

Farmers say that the beet help make or break the crop at blocking and thinning time. The beet help say the framers do not explain sufficiently what they want the workers to do in blocking and thinning. Observation shows that supervision of the labor is too often lacking. From this article by Prof. Robbins any grower can learn the value of leaving the big beet.

General results are as follows:—The large seedling develops into a larger beet at harvest than does the small one.

The percentage of beets dying is usually greater among those which are small at the time of thinning than among those which are large at thinning.

The total sugar of beets from large seedlings slightly exceed that of beets from small ones.

The percent of tops in terms of the average weight of beets at harvest is smaller in the case of beets from the large seedlings than in that of beets from the small seedlings.

Tests similar to the above were conducted for two successive seasons (1926-27) at the University Farm, Davis, California. In both years, the yield from large seedlings was approximately 35 per cent greater than that from small seedlings.

It has been calculated that every hour the farmer spends in supervising his beet workers, insisting on a closer spacing and leaving the big beet, pays the farmer big profits. There is no easier way to increase the yield of beets than by leaving the large seedlings at thinning time.

Subscribe to the "Recorder."

R. A. Van Orman is in the hospital at Lethbridge. His progress towards health seems rather slow.

John Allen, son of Pres. and Mrs. H. S. Allen arrived home Wednesday night.

BASEBALL LEAGUE ORGANIZED

The Southern Alberta Baseball League was organized at Magrath on Sunday, June 9, 1929, with teams being entered from Raymond Magrath Spring Coulee and Cardston.

After the speech by the President L. D. King, and the reading of the minutes of the last meeting by the Secretary, the following officers were elected:—

Pres.—G. L. Woolf.

1st. Vice-Pres.—J. L. Mercer.

2nd Vice-Pres.—M. R. Woolf.

3rd Treas.—W. G. Laidlaw. (re-elected)

Those present at the meeting were: C. B. Cheesman and 'Bill' Laidlaw Cardston; J. L. Mercer and G. W. Irwin, Spring Coulee; G. L. Woolf, Magrath; and L. D. King, M. R. Woolf, C. Naider and R. Humphreys, Raymond.

Stirling and New Dayton had intimated their intention of entering the League, but they had no delegates present and Constitution prohibits any team from entering except by personal representative.

After a discussion of rules and regulations the following schedule was drawn up and accepted:—

JUNE 12

Sp. Coulee at Cardston
Raymond at Magrath

JUNE 19

Magrath at Sp. Coulee
Cardston at Raymond

JUNE 26

George Ross, cattleman of Southern Alberta and Montana has purchased an aeroplane to do his herding in.

Word reached here Sunday of the death in Payson, Utah, of David Brewerton, a brother of C. W. Brewerton, who died on Saturday, June 8, after an illness extending over some years. Deceased was about 70 years of age, and leaves his wife and a family of grown sons and daughters to mourn his demise.

Crop Report

Crop conditions throughout the greater part of the province are very satisfactory and grain is making splendid growth, according to telegraphic reports received by the Department of Agriculture on Friday for the third fortnightly crop report of the season. Moisture requirements for some weeks have been supplied by the heavy rains which visited the southern section of the province over last weekend, and all crops are growing rapidly.

Prospects in the Peace River district are very promising and any immediate danger of drought has been removed by frequent rains during the past three weeks. Crops growing on land newly broken last season are looking exceptionally well.

In the Edmonton district and some distance south and east the continued absence of precipitation is beginning to cause some concern, although in very few localities has the drought as yet seriously reduced the prospects of a crop. In some limited areas high winds have caused damage from soil drifting, but this is by no means general. Breaking on new land has been retarded to some extent in this section of the province by the absence of moisture in the sod, while in the south a larger acreage than usual is being broken in readiness for next season's crop.

Early sown wheat in most localities is now covering the ground, and an exceptionally good stand of fall wheat is reported from many districts in the south. Alfalfa and sweet clover are making a vigorous growth, and prospects of an increased tonnage of sugar beets are excellent. Livestock generally is in good condition and in a number of districts increased numbers of farmers are making a start with a small flock of sheep.

Town Council Meets

The regular monthly meeting of the Town Council was held Thursday evening June 13th. Routine business occupied most of the time including the passing of the regular bills, etc.

Frank Leavitt was appointed constable, with full police powers, during the illness of R. A. VanOrman. Sam Dyson was appointed Weed Inspector for the town.

It was decided to have the services of a competent engineer regarding a water storage system. At present we depend entirely on the pumping system, and the Council felt that a storage system should be provided.

A by-law was passed appointing O. H. Snow as Returning Officer for the Town Hall Debutante Vote next Thursday.

Arthur McMullin has graduated from the school of Technology and Art at Calgary, and has accepted a position with the Bruce-Robinson Electric Co.

At the S. of A.

D. L. Gilbert who has been at the Galt Hospital where he was operated on recently for appendicitis is convalescing at his mothers farm near Nobleford. Our last report is that he is doing nicely.

Miss Thelma Kearns S. of A. stenographer left on June 1st for her holiday. She will visit the coast in company with her brother and expects to be back in two weeks.

Percy Johnson, accountant for the Department of Agriculture, was a recent visitor at the School.

Friends of Mrs. D. L. Gilbert who were fortunate enough to hear her play at the recent recital of Mr. Youngs piano students were delighted with her finished rendition of three delightful numbers. The recital was broadcasted from Lethbridge.

Miss Jessie Redig who is assisting Mr. Gilbert with School Fair work visited the Experimental Farm at Lethbridge on Friday last where she spoke to over five hundred students from the Coaldale school fair district. The picnic of students and parents was sponsored by the Coaldale Consolidated School and was a very commendable showing of community spirit.

Unusually early and fine weather was experienced this year under the supervision of Mr. C. O. Asplund; at Hillspring, with thirty-two members and one at Glenwood with thirteen members. The feeder pigs which included ninety pure bred Tamworth weaners have already been distributed. These were purchased principally in the Neaton and Arrowood district and were brought in by truck. The breeding stock is yet to be distributed. Marked enthusiasm has been displayed by the people in this work.

W. G. Smith, field husbandry instructor is sporting a new Essex Coupe. Mr. Smith is in charge of the fertilizer experiments and special investigation work in connection with weeds. In the latter capacity he is setting down plots all over the Province.

The annual Alumni Reunion is being planned for July 5th. Although this date is tentative we would like alumni to keep it in mind. Let's have a real reunion time this year.

The Short Course for School Fair winners starts July 8th and continues to July 13th.

The grounds are looking their best now. There is considerable bloom and the hedges and shrubs are in splendid condition. Not many people come our way to see just what we have. We would remind you that visitors are welcome.

Jas. H. Walker has contracted for twenty-one head of Oxford ram lambs for this fall. This is the biggest single purchase from our flock. We consider our Oxfords among the very best of the breed in Canada and are glad to see them going in numbers to local sheep men.

A number of pure Tamworths are also being sold locally. The last sale being to Mr. I. B. Roberts who purchased two sows and a boar.

Shearing was recently completed here. The flock average this year is slightly under eleven pounds. The lamb crop is good there being nearly three lambs to every two ewes at this writing.

Gala Celebration Planned for Dominion Day Here

One of the finest celebrations in a long while is planned for Dominion Day, when the birthday of the Dominion, and also of Raymond will be commemorated. There will be something doing from day break until midnight and everyone is assured a real time.

Following the cannonading in the early hours of the morning, a parade will take place about 9:30, prizes being given for the winners, details of which will be given later. A fine program will commence about 10 or 10:30 a.m., portraying the subjects of the day. Then in the afternoon at the Fair Grounds, there will be something to interest everyone, and the big dance in the Opera House at night will conclude the day.

Everything will be free except the Afternoon Sports and the Dance, and the afternoon will only cost 50c. for Adults, and everyone under 16 will be admitted FREE, so you can't kick about being held up.

The committees are all organized and working hard, and the full details will be announced shortly. Let's make this a red-letter day for Raymond by everybody joining in and boosting.

Welling News

(From our own correspondent)

WELLING, June 11—The past week has been a very busy one for road workers. There were several culverts and mud-holes to fix, besides the regular dragging.

The C.P.R. have most of their bridges and checks back in place now. There is a pile-driver at work on the bridge just south of the Welling station.

Quite a few acres of beets were re-seeded in the district last week. Some of the farmers planted barley instead of re-seeding beets.

A lawn party was held on Sunday evening at the home of D.E. Wilde. A delightful luncheon was served by Mr. and Mrs. Wilde, games were played, and everyone had a very enjoyable time, until about 10:30 when the party broke up.

Friends of Julia Cox will be sorry to know that she has been confined to her bed again.

Geo. E. Gunning motored to Spokane Sunday, and on his return will be accompanied by Mrs. Gunning and daughter Margaret. They are expected back in about two weeks.

N. W. Peterson and family spent Sunday with Mr. and Mrs. George Rasmussen and family.

The Y.M.M.I.A. of Welling was re-organized Sunday. Pres. Floyd Wilde and Councillors were released, and the new officers are: Alma Bullock, Pres., R. L. Wildo and Claude Peterson, Councillors.

Mr. and Mrs. Evans Stringam and daughter of Lethbridge, were Sunday visitors here.

Claude Peterson motored to Wrentham with Carl Ash on Sunday.

Geo. E. Gunning has bought another Caterpillar Tractor recently. He has sold most of his horses and has men busy tearing down his barns.

Mr. and Mrs. Leonard Cox and daughter were visitors here Sunday. James Thomson motored to Diamond City Saturday. He returned Sunday afternoon accompanied by Mrs. Smith and daughter Ellen.

The people of Welling were disappointed because the roads were so bad they could not attend Cristy Bros. Circus last Monday in Lethbridge. Ten years ago while travelling in Southern Alberta it spent three days here. It was then only a three ear circus and one ear was completely smashed and one man killed when the bridge crossing the Nine Mile went down with them.

The terrible windstorm that came up Saturday evening, blew one of the windows out of Eldred Foote's house. No other damage was reported and there was very little rain fell in this district.

Farmers have been harrowing their grain to break the crust which formed after the heavy rain.

F. R. Taylor and J. W. Evans spent several days last week in the beet fields of the district.

Nearly half an inch of rain fell on Monday, there being several heavy showers.

TO STOCK ALBERTA LAKES WITH PERCH

Arrangements will be made this season to stock Chestermore Lake east of Calgary, and McAlister Lake near Strathmore, with perch it is announced by R. T. Rodd Dominion Fisheries supervisor for Alberta. It is introduced into Gull Lake and Clarke's probably that these fish will also be Lake in the Lacombe district, the Chain Lakes near Ponoka and in other lakes in the locality of Hardisty. Mr. Rodd reports that some 50,000,000 pickers have been hatched in the Lesser Slave Lake hatchery. Most of these will be placed in Lesser Slave Lake but stocking will also be carried on in a number of other lakes in the province.

PROPOSED DEBENTURE BY-LAW FOR BUILDING A TOWN HALL

A BY-LAW of the TOWN OF RAYMOND to provide for the Building of a NEW TOWN HALL and FIRE HALL.

WHEREAS it is deemed advisable by the Municipal Council of the Town of Raymond to Build a Town Hall in the Southeast Corner of Blocks One (1) and Two (2) at an Estimated Cost of \$10,000.00

AND WHEREAS it is deemed expedient that the said loan bear interest at the rate of 6 p.c. per annum to be paid equally in annual installments both as to principal and interest.

AND WHEREAS it has been ascertained that the probable life of the building and the necessary changes shall continue over a period of Twenty years.

AND WHEREAS the Rateable value of the Property of the Town of Raymond is \$524,957.50.

AND WHEREAS the Total Bonded Indebtedness of the Town of Raymond is \$40,918.16 and no part of it is in Arrears.

THAT FOR THE PURPOSE AFORESAID there shall be borrowed on the credit of the Town of Raymond at Large, the full sum of \$10,000.00 and Debentures shall be issued therefor in the sums of not less than One Hundred each, bearing interest at the rate of 6 p.c. per annum.

THAT THE DEBENTURES shall be issued and dated within one year and shall be payable as nearly as possible in equal amounts in each year and shall run for a period of Twenty years.

The above is a true synopsis of the By-Law as proposed by the Council of the Town of Raymond, and will be submitted to vote of the Burgesses on Thursday, June 20th, 1929, when within Four Weeks from the time of voting, the By-Law shall be passed.

THE POLLS will be opened for voting at the Town Hall at the Hour of 10 A.M. and close at 7 P.M. on the 20th day of June, A. D. 1929.

FIRST TRANS-ATLANTIC FLIGHT
The first Trans-Atlantic flight was successfully accomplished by two British aviators, Captain John Alcock, D. S. C. pilot, and Lieutenant Arthur Whitten Brown, navigator, the machine used was a Vickers Vimy Rolls Royce twin engine.

It was a marvellous flight, greater glory attaches to it because it was made under bad weather conditions; indeed fog so obscured vision at times that the machine was discovered to be flying upside down and once only fifty feet from the water.

The project of the Atlantic flight was originated by the late Viscount Northcliffe in the London Daily Mail in April, 1913, and suspended during the war.

Captain Alcock and Lieutenant Brown left St. John's Newfoundland at 5:13 P. M. Saturday June 14th 1919, and landed near Clifden, Galway, Ireland, at 9:40 the next morning—a flight of 1880 miles, taking only fifteen hours fifty-seven minutes—a truly marvellous flight, which won for the victors a prize of 10,000 pounds.

Both Captain Alcock and Lieutenant Brown were knighted by His Majesty, the King in 1919. Sir John Alcock crashed during a flight about a year later and was killed.

KEEP FLOWERS PICKED
In order to have flower gardens looking their best at all times and also to secure the maximum amount of bloom all dying flowers must be kept removed. With most sorts, the oftener the bloom is removed, the more of it there will be. When plants are allowed to start developing seed pods, all the energy goes into this part of the business and there are no more flowers. With those which produce clumps of small blooms, such as alysium, phlox, lobelia and even some of the larger types such as petunias, the flowers may be sheared off. If one has the time, it is also a good plan to nip off many buds and a portion of the side shoots. This will result in much larger flowers as the energy which would have gone into the unwanted side shoots and buds will be turned into those buds left.

News Notes

King Motors sold a one and a half ton Ford truck to John Oler of Stirling on Thursday this week.

V. Taylor, salesman of the Baalim Motor Co., Lethbridge, has spent most of the week in the district.

George Weston, one of the Lethbridge jail breakers has been given a sentence of four years at Prince Albert jail.

Quite a number of Raymond people were in Lethbridge on Wednesday to take in the Al. G. Barnes circus which offered the usual thrills to young and old alike.

King Motors have a window display of the difference in valves after being ground with their new machine. If you want the valve service is worth investigating.

C. W. Lamb, J. W. Evans, O. J. Rolfe and June Anderson were in Calgary this week. They motored up in C. W. Lamb's new Ford.

The Calgary Herald says that Benton Olds will commence development of their oil leases on the Blood Reserve very shortly.

The Saskatchewan river at Saskatoon had risen 17 feet during the past week but was reported as receding on Sunday, June 9.

M. D. COUNCIL MEET

The regular monthly meeting of Sugar City Municipal District Council was held June 11, 29 at Raymond.

Emory Barnes of Spring Coulee was present to ascertain the attitude of the Council regarding the gravelled highway, and it was pointed out that if the road is built through from Cardston to Lethbridge passing through Raymond, the Council is in favor of it. As soon as the circulation and signing of the petition is finished and the petition sent in, organization of the district will commence.

The regular monthly payroll was passed.

GREAT ARMY OF TALENT MARSHALLED FOR INSTITUTE OF CO-OPERATION JUNE 24-27

Arrangements will be brought to completion this week for the four-day session of the Alberta Institute of Co-operation to be held in Lethbridge Monday to Thursday of the last week of this month.

Never before it is safe to say, either in Alberta or anywhere province or country has a greater array of talent been marshalled to give information and inspiration along the lines of co-operation in the field of agriculture. Here are some of the subjects listed: "Co-operative Accounting," "Legal Aspects of Co-operation," "Social Control of Credit," "Co-operative Finance," "The Canadian Wheat Pool," "Selling Alberta's Wheat," "Progress of Livestock Marketing," "Co-operative Marketing of Wool," "The Alberta Dairy Pool," "Consumer's Co-operation in Alberta," "The Canadian Poultry Pool."

In addition to the Alberta and Canadian experts who will deal with such subjects as the above, the following speakers of note from the United States will make their contribution: Clyde L. King, of the Wharton School of Finance and Commerce, University of Pennsylvania; Prof. J. T. Horner, secretary of the Dairy Products Research Bureau, Detroit, Mich.; Dr. E. G. Nourse, chief of the Agriculture Division of the Institute of Economics, Washington, D. C.; C. B. Denman, president of the National Live Stock Producers' Association, Chicago. Messrs. E. B. Ramsey, manager, and George McIvor, general sales manager of the Canadian Wheat Pools, will be the authorities giving addresses on the subject of wheat marketing.

The evenings are to be devoted to inspirational meetings at which such speakers as Dr. H. W. Wood, Premier Brownlee, Dr. Wallace and Mrs. R. B. Gunn will speak; one of the evenings being devoted to a banquet. The four days will find their social climax at a U. F. A. dance to be held at the pavilion in Henderson Park on Thursday evening.

Registrations at the nominal fee of one dollar for the entire four-day series are being received by the registrar, M. L. Freng, district agriculturist, Lethbridge. The U. F. A. locals of the Lethbridge area are each being asked to nominate one young person under 22 years of age whose expenses, including transportation board and room for the four days, will be met from the funds of the Institute. Quotas of young people from the agricultural schools, the Women's Institute girls, C. G. I. T. and C. B. E. T. classes and Boy Scouts are also being cared for on the same terms.

CHANGES CORPORATE NAME

The world famous old concern the J. I. Case Threshing Machine Company Inc., of Racine, Wisconsin, has just announced a change in its corporate name. Henceforth, the organization will be officially known as the J. I. Case Co. Inc. There will be no change made in the personnel or established policies of the institution.

Recently Case acquired all outstanding rights to the use of the names "Case" and "J. I. Case" on plows, harrows and certain other farm tools, and now has the exclusive right to the use of the names "J. I. Case and "Case" on all farm machinery and implements. Now there is only one Case organization, and that is the J. I. Case Co., Inc., of Racine, Wisconsin formerly called the J. I. Case Threshing Machine Company.

This change in name was deemed necessary due to the fact that the Company has outgrown the name given it a great many years ago, when its principal product was threshing machines. From the very beginning, the line of products steadily expanded until now it includes a full line of farm operating equipment, so the words "Threshing Machine" in its corporate name no longer indicates adequately the classes of product it manufactures and sells.

The most recent expansion took place during the past year when Case acquired the implement business and factories of the Emerson-Brantingham Company of Rockford, Illinois. This brings under the Case banner one of the oldest and most favorably known line of farm tillage, seeding, haying and harvesting machines.

For nearly a century, Case threshing equipment has held a position of outstanding leadership. Since the year 1842, when Jerom Inman Case laid the foundation of the giant manufacturing concern which proudly bears his name, the Company has always been a pioneer. The Case organization pioneered the development of farm or steam traction engines. They gave motive power to the gas engine by designing and building in the year 1892 the first gas tractor of which there is any record. This company also built tractors as early as 1913 that met with instant success because they embodied most of the practical features found in the tractors so very popular all over the country today.

Case was the first to pioneer the change from wood to steel in building threshers, and fully developed this type years before other manufacturers did so.

Case was the first company in the industry to improve farm machinery by making extensive use of light, strong steel stampings and forgings in place of heavy cast iron parts. Likewise, Case was the first to adopt adjustable fitted bearings lined with alloy metal in the place of rough metal. It also was one of the pioneers in the introduction of the miracle machine of the modern harvest, the Case Combines.

ALBERTA INSTITUTE OF CO-OPERATION

LETHBRIDGE OLDS VERMILION

JUNE 24th -- 29th, 1929

Arrangements have been completed for the holding of three separate Institutes of Co-operation in the Province, similar to the one which proved so successful at Edmonton last year.

The meetings will be addressed by speakers who are outstanding authorities on various phases of co-operation in many parts of the continent, and special attention will be paid to the problems in co-operation affecting Alberta farmers. The co-operative marketing of wheat, livestock, dairy products, and poultry and eggs, and the consumers' co-operative movement will be considered and discussed.

Special arrangements are being made for the junior section of the Institutes, and for the instruction and entertainment of the young people who will attend.

Plan to attend the Institute nearest your home, and in order to ensure accommodation, communicate at an early date with the registrar—
